

# Nature Works

## Client satisfaction letter

To whoever it may concern:

Mr. AURELIO PARDIS LEOPORI, as D. OPERACIONES at the BIOPARK zoo, situated at Pio Baroja Avenue number 3 in Valencia

Verifies by signing this document that:

The technological glass for industrial filtering purposes NATURE WORKS HI-THECH GLASS FILTER MEDIA, which as I have been informed has Anti-Compaction Technology (©Grupo Camacho), obtains very satisfactory results.

The filter media that has been substituted was:

|   |                                       |                                    |
|---|---------------------------------------|------------------------------------|
| <input checked="" type="checkbox"/> Silica sand | <input type="checkbox"/> Common Glass | <input type="checkbox"/> AFM Glass |
| <input type="checkbox"/> Diatom                 | <input type="checkbox"/> Zeolite      | <input type="checkbox"/> Others    |

I may confirm that NATURE WORKS GLASS FILTER MEDIA has allowed us to:

- Reduce the number of washes by more than 30%
- Reduce the consumption of ferric chloride by aprox. 10%

I may also confirm that the particle of the new filter media is completely harmless with its single kind of grain.
